

**1 Brainstorm & Idea prioritization**

**Before you collaborate**

Before you start your brainstorming session, it's important to have a clear understanding of the problem you're trying to solve. This will help you to generate ideas that are relevant and useful.

**2 Brainstorm**

**Define your problem statement**

Before you start your brainstorming session, it's important to have a clear understanding of the problem you're trying to solve. This will help you to generate ideas that are relevant and useful.

**3 Group Ideas**

**Prioritization**

Now that you have a list of ideas, it's time to prioritize them. This will help you to focus on the most important ideas and discard the less important ones.

**4 Tracking Location**

**UI**

**Physical Features**

**Database**

**5 After you collaborate**

Now that you have a list of ideas, it's time to prioritize them. This will help you to focus on the most important ideas and discard the less important ones.
